EDUCATION

Royal Melbourne Institute of Technology

Bachelor of Computer Science, Major in Enterprise Systems Development

Melbourne, VIC

Mar. 2022 - Dec. 2025

The University High School

Victorian Certificate of Education (VCE)

Parkville, VIC

Jan. 2015 - Dec. 2020

TECHNICAL SKILLS

Programming Languages: Java, Python, C#, C++, SQL, HTML/CSS, Javascript, Typescript

Frameworks: React, .NET, Node.js

Tools: Git, Github, Docker, Flask, Oracle VirtualBox, SQLite, MongoDB, JUnit, Trello

Quantitative Skills: Algorithms, Data Structures, Database Management, Performance Analysis, Mathematical Logic

EXPERIENCE

Sessional Researcher

Sept 2025 – Present

RMIT STEM Hub for Digital Innovation

Melbourne, VIC

- Contribute to technical development projects supporting teaching, learning, and research across the STEM College
- Assist in lab operations and equipment management, ensuring smooth setup, maintenance, and demonstrations
- Deliver presentations and demonstrations for community visitors, including high school groups, showcasing digital innovation projects
- Collaborate with staff and students in the Virtual Experiences Laboratory, providing technical expertise

Medical Receptionist

Oct 2021 – Present

William Angliss Institute Medical Centre

Melbourne, VIC

- Operate medical scheduling software to create and update patient appointments
- Handle inbound and outbound patient calls with professionalism and empathy
- Process a variety of billing procedures accurately and efficiently

Software Developer Intern

Mar 2025 – Aug 2025

RMIT STEM Hub for Digital Innovation

Melbourne, VIC

- Contributed to OpenAgar, a web-based multiplayer game showcased at RMIT's Virtual Experience Laboratory
- Developed autonomous bots using Python and Websockets to enhance gameplay and player interaction
- Implemented a Finite State Machine (FSM) framework to control complex, realistic bot behaviour
- Collaborated in an Agile development framework, participating in regular stand-ups and development cycles

PROJECTS

Email Generation Platform | *Node.js, React, Tailwind, OpenAI API, GitHub*

Nov 2025 – Present

- Developing a web-based OSINT system that analyzes web-domains using LLM-driven intelligence gathering
- Implemented prompt pipelines to identify legal entities, partners, and technology stacks from open data sources
- Automated structured JSON generation and dynamic rendering of emails in both LaTeX and HTML views
- Built with React and Tailwind using the App Router, deployed on Vercel with tRPC for type-safe API calls

Internet Banking Website | *.NET, C#, EF Core, Azure SQL, GitHub, Trello*

Aug 2025 – Oct 2025

- Developed a full-stack ASP.NET Core MVC Internet Banking system with customer and admin portals
- Implemented login, deposit, withdrawal, transfer, profile management, and bill payment features
- Integrated Azure SQL Server using EF Core Code-First with data seeding via RESTful web services

AWARDS & ACHIEVEMENTS

1st Place, Watt The Hack (Advanced Grid Guardian Challenge), 2026: Placed 1st in an AI-driven energy grid optimisation hackathon, awarded \$5K USD in OpenAI API credits and ChatGPT Pro.

RMIT Open Day Certificate of Recognition, 2025: Volunteered and presented OpenAgar project at RMIT Open Day.

Certificate of Commendation, 2023: Awarded to students who obtained a Grade Point Average (GPA) of or above 3.8 in 2023.

Accelerated Program, 2017: Selected for advanced learning program for high-performing students.
